MEETING REPORT
12th ISO/IEC JTC 1/SC 31 PLENARY
World Trade Center, Moscow, Russia
25-26 MAY 2006

Opening of the Meeting

The twelfth JTC1 SC31 Plenary meeting was held in Moscow, Russia. Acting Chairman, Mr. Charles Biss, called the meeting to order at 10:30 h on 25 May 2006. There were 38 delegates representing 13 National Body P-members, 4 Liaison members. Mr. Biss welcomed all the participants and introduced Mr. Viacheslav I. Telegin, the plenary host thanking him for the wonderful meeting facilities and arrangements.

<u>Member Country</u>	<u>Status</u>	<u>No. Of Delegates</u>
Australia	P-Member	1
Canada	P-Member	1
China	P-Member	2
Denmark	P-Member	1
France	P-Member	2
Germany	P-Member	1
Japan	P-Member	5
Republic of Korea	P-Member	3
Russian Federation	P-Member	10
Singapore	P-Member	1
South Africa	P-Member	1
United Kingdom	P-Member	1
United States*	P-Member	5
GS1	L-Member	3
AIM Global	L-Member	1

* NOTE: The AIM Global delegate was also HoD of the US delegation.

National Body Contributions

- National Body of the United States Endorsement of US Candidate for JTC 1/SC 31 Chairman
 The Acting Chairman invited the Head of Delegation of the National Body of the United States to present their contribution contained in document [SC031-N-2051](#). Mr. Dan Kimball presented the group with the endorsement of his country's National Body for Mr. Chuck Biss as candidate for JTC1/SC 31 Committee Chairman.

- National Body of Japan Contribution
 Mr. Chuck Biss asked the representative from the National Body of Japan to present its contribution regarding Japanese Governmental Efforts to RFID and Proposal on Middleware (see [SC031-N-2096](#)). Mr. Kazutoshi Morita from the Information Economy Division from the Japanese Ministry of Economy, Trade, and Industry made a presentation to the attendees. The presentation centered on RFID and the efforts made in Japan to promote this technology, including the field trials projects that are taking place. In addition, he gave information about the direction of policy for RFID tags in Japan, which include increasing the number of companies using RFID and promoting trial projects, creating a legal infrastructure that includes rules for the treatment of privacy issues, and also an economic infrastructure that facilitates the adoption of the technology. The presentation illustrated the scheme of ISO standards 15961/15962 and 24752, data management architecture based on current RFID Interrogator system, data management architecture based on Middleware with Profile box, and a draft of a new scheme of Middleware with profiles. Mr. Morita closed his presentation by adding that RFID trial projects are conducted in many industries in Japan.
